

the art of sound

There are a lot of music phones. The SAMSUNG Trance™, on the other hand, is a phone that has turned its music functionality into an art form. It supports MP3, plus about a half-dozen other file formats. It has dedicated touch controls. It has a full 1 GB of storage. And it has a Bang & Olufsen amplifier and digital processing system that brings your music to life like never before. But this is not just a music player. You also get a slick and stylish sliding phone, a 1.3 megapixel camera, Media Center and multiple messaging options – all of which should be music to your ears.

music player with Bang & Olufsen ICEpower®

The Trance™ isn't just a music player. Thanks to sound technology by Bang & Olufsen's ICEpower®, it's a full-function music powerhouse. The ICE in ICEpower stands for Intelligence, Compactness and Efficiency. But what it means is you get clear, powerful sound whether you're listening through a headset or the built-in speaker.

1.3 megapixel camera with nightshot

A built-in 1.3 megapixel camera means you'll never miss a photo opp again. And with SAMSUNG's digital zoom and NightShot functions, your photos will be well worth sharing.

gps enabled

With the Trance™ and Verizon Wireless' VZ NavigatorSM, you can get turn-by-turn directions and take advantage of location-based services, like finding the exact location of the nearest ATM. It's the easy way to find your way.

Stereo Bluetooth® wireless technology

This SAMSUNG easily connects to Bluetooth-enabled headsets, handsfree car systems, compatible printers and more. And with stereo Bluetooth, you can enjoy your music in stereo. The Trance™ even includes Music Sharing Capability, so you and a friend can listen together through two connected Bluetooth headsets.

media center

Keep all your personal stuff together. With Media Center, you'll have quick access to your ringtones, pictures and much more.

ENERGY STAR®

Powered by an ENERGY STAR® qualified adaptor for a better environment.
