

express yourself globally

Introducing a phone that can take you from the boardroom, to the living room, and around the world. The SAMSUNG Renown™ has global capabilities, but that's only the beginning. It's also capable of texting and chatting, shooting great pictures or video, listening to music and doing it all without wires. And if your phone is capable of so much, that means you are, too.

global mode

With the SAMSUNG Renown, you can go around the world without getting out of touch and stay connected in more than 200 destinations. Its global capabilities mean you can access both GSM and CDMA networks (where applicable). In other words, international travel won't leave you feeling disconnected. Go to www.verizonwireless.com/vzglobal for coverage and rates.

2.0 megapixel camera

The Renown has a built-in 2.0 megapixel camera so you'll never miss capturing that special moment. Want to shoot at night? The Renown has NightShot mode. Want to shoot video? It also has a camcorder.

multiple messaging

If you like to use your phone for more than just talking, you'll love the Renown. It offers, text messaging, Mobile Instant Messaging, picture messaging, video messaging, email and chat. You may never talk on your phone again.

Bluetooth® wireless technology

With the Renown – and Bluetooth® Wireless Technology – you can wirelessly connect to Bluetooth-enabled stereo or mono headsets, hands-free car kits, printers, computers and more.
